With various zipper styles and either top or bottom load options, proper function with any product is assured. Pouches can be produced with bottom gusset, or single or double-sided gussets; and they can be used for reusable and bulk packed products. All stand-up zipper pouches are produced under strict ISO 13485 production standards.

## TO MEET YOUR SPECIFIC REQUIREMENTS

We offer a wide range of films, laminates, and foil structures in a variety of sizes, as well as DuPont™ Tyvek® Medical & Pharmaceutical Packaging materials Tyvek® 1073B, Tyvek® 1059B, Tyvek® 2FS™ and Tyvek® 40L.

### CAPABILITIES

- Custom pouches in small or large quantity runs
- Unprinted or printed in up to eight colors
- Available in all film and/or foil combinations

### MATERIALS

- Tyvek® specialty films
- Film and foil laminations to suit any application

### STERILIZATION

- Radiation
- Autoclave
- ETO
- Retort

### DUPONT™ TYVEK® MATERIALS FEATURES AND BENEFITS

- Maintains maximum sterility - exceptional microbial barrier performance compared to other commercially available porous packaging materials
- Reduces packaging related failures - exceptional tear strength and puncture resistance up to eight times stronger than medical-grade papers
- Compatible with a broad range of sterilization methods

### VALIDATION & TESTING SUPPORT

We adhere to the most stringent requirements for the highest level of sampling, inspection, documentation and training to produce extremely reliable packaging products and solutions for the medical device, diagnostic and pharmaceutical markets we serve.

We do the testing in our in-house laboratory and conduct trials and validations as well as short pilot runs to ensure seal strength, porosity, burst, abrasion and puncture resistance.

*We do  
what others  
don't.  
We customize  
where others  
won't.*
